SecureWatch for Compliance Management

Managing compliance involves meeting regulatory requirements and audit preparation. Regulatory Compliance is not optional and not meeting it is the most common risk that organizations today face.

RiskWatch offers risk and compliance management software that provides an easy-to-manage platform that will keep track of all regulatory risk and compliance efforts.

SecureWatch

A Compliance Management Solution

Through a proof of concept, companies can see these **key benefits** (and more) in **Secure**Watch:

- ✓ A recognized methodology for conducting & reporting on compliance assessment.

- ✓ Reduces the burden of managing and reconciling compliance assessment documents and spreadsheets while eliminating transcription errors.

- ✓ Deploys and tracks surveys in real-time.

- ✓ A top down and bottom-up view of organizational compliance.

- ✓ Identify gaps in compliance, make recommendations and assign action plans to avoid penalties.

- ✓ Designed to work with all regulations and standards in all industries.

- ✓ Generates reports that are fully customizable by the end user.

- ✓ Clearly identifies non-compliance and assists in mitigation.

- ✓ Tracks and helps manage your mitigation program.

- ✓ A zero-footprint web-based technology requiring no additional hardware/software.

- ✓ Comprehensive high-level audit criteria to ensure regulation is being met.

- ✓ Compliance analysis that determines risk score and identifies areas of high risk for further investigation.

- ✓ Recommendations can *be* automatically offered to mitigate non-compliance and vulnerabilities identified.

SecureWatch helps enterprises assess and manage their third-party suppliers in a way that saves them 70-80% of time.

Realized Time Savings:

RiskWatch

Model Inputs**	Current Program	SecureWatch
Hours needed to communicate (email) and interview client, perform survey or request documents to review	1	0
Hours required to gather assessment data*	3	1
Hours required to analyze data gathered	4	2
Hours required to perform remediation	3	1
Hours required to write report	20	4
Total Hours	31	8
Total Reduction of Time	**74% (23 hours per assessment)**	

** The time saved can be multiplied by the amount of people that are involved in each step of the assessment process. We have only included a single person for each step in the model inputs above.
* SecureWatch can provide data not available in current assessment program.

RiskWatch offers an instant **free trial** and a consulting service to assist in performing a **proof of concept** using SecureWatch or any of its assessment platforms.
